

ALAN T. CARR

QUALITY BATHROOMS SINCE 1972

# WELCOME

In April 1972, a bathroom retailer became frustrated with his current suppliers offering poor service with even poorer products. At the opening of his new Bathroom Distribution business, Alan T. Carr made a pledge to himself, and to his industry.

"I will offer the highest quality products possible, at an affordable price with outstanding customer service."

With this declaration as the foundation of our Company, it is at the heart of our reputation. Fast forward 5 decades and even though the bathroom has changed from a small room in which to wash, into a modern living space renowned for luxury, our core principles have not.

We believe that your experience of choosing a new bathroom should be as rewarding as taking that first hot shower. With that philosophy at the forefront of our minds, we've created this new look brochure showcasing many quality products with cutting edge designs to suit all desires.

Prices are inclusive of VAT. We reserve the right to modify specifications and prices without prior notice.

Images are for brochure purposes only. Colours represented in this brochure are as accurate as the printing process allows.

# FURNITURE & MIRRORS

Without doubt, the biggest shift in bathroom design over the past decade has been the introduction of furniture both in an aesthetical and practical sense.

By working closely with our manufacturers, we have developed a cutting edge, designer range of units and accessories, that look amazing without compromising quality or functionality.

With styles to suit all tastes and sizes to suit all requirements, you'll find everything you need here to give your bathroom the 'Boutique Look' now so popular.

With many ranges incorporating matching sanitaryware, you can create your new bathroom with ease and confidence.

# SANITARYWARE

Our collection of ceramic toilets and basins from industry renowned brands such as Cerastyle, Cersanit and Kale, along with our very own exclusive Technique and Technique Plus brand, present an eclectic mix of current designs and styles.

We have built our sanitaryware collection to a point where every need is taken care of; back to wall & wall hung pans now feature prominently throughout as the trend towards smooth clean lines gathers pace, and short projection toilets are available to get the modern minimalist look now so popular. We have traditional suites which will complement a more traditional style of property and everything in-between.

Whether you're looking to install a downstairs toilet, en-suite, or your main bathroom needs updating, there will be something here that will meet your requirements.

# SHOWERING

With spare time in todays manic and pressurised world at a premium, the need to grab a quick shower has never been greater. However, we believe this doesn't mean your shower cubicle should be compromised when it comes to looks and quality. With five different styles of tray, four ranges of glass shower screens and many options on the shower itself, you'll find everything you need to create the invigorating shower we all enjoy.

Wetroom style walk in trays with single sheets of glass have never been more popular. We have a great range of sizes available and whether your idea of style is minimalistic or something a bit different, one of our four types of trays will suit you.

All our 6mm & 8mm shower cubicle ranges come with top quality metal hinges, rollers, handles and easy clean glass coating for extra luxury. The coating is added to the glass which creates an invisible barrier against bacteria & lime scale build up and makes the cleaning process easier.

No matter what type of plumbing system you have, you will find a shower here suitable for all from leading brands such as Inta, Redring and our own Technique brand.

# BATHS

Baths have come a long way since a steel tub was placed next to a coal fire and are now considered the pinnacle of bathing luxury.

Our Technique range of free standing baths are made to the highest quality. Whether you're looking for an ultra-modern look, a more traditional style or a mixture of both, you'll find something to suit here.

We also have our Technique range of acrylic and steel baths which are available in many shapes and sizes including L & P shape, corner, gripped and plain versions. With various models available in our exclusive Armatec option, whereby the standard 5mm acrylic sheet and encapsulated base board is given extra rigidity by a further coating of super strength fibre glass, you can be sure your choice will withstand the pressures of the modern bathroom.

For that extra touch of luxury, we have five different whirlpool options that will make your bathing experience all the more relaxing.

# ARMATEC

Our **Armatec** baths are made of the highest quality materials providing **strength** and **warmth**.

The baths are reinforced with layers of fibreglass, resin and a special hardening composite called **Armatec** which makes the baths much stronger and improves insulation. As a result the water stays warm for longer.

The sheet we use is completely resistant to the UV rays which prevents discolouring when exposed to sunlight.

# TAPS, WASTES & ACCESSORIES

Possibly the final jewel in the crown when creating the perfect bathroom, taps are probably the first thing noticed when entering a bathroom and the demand for striking designs has not been ignored.

With our Technique range of taps we have a selection which will suit every bathroom from modern mixers to traditional pairs and with most basin mono's coming with our 'Eco Click' cartridge; your purchase won't cost the earth in more ways than one. A huge variety of square, round, waterfall and traditional styles make up the Technique collection and with the peace of mind 5 year guarantee, you need look no further for the jewel you've been waiting for.

All of our accessories are chrome on brass or stainless steel, ensuring a quality finish and a designer look to compliment every bathroom.

# HEATING

Designer radiators have become a huge part of modern living, not just in the bathroom but throughout the home. Here you will find some of the most up to date designs to give your bathroom the wow factor you've been looking for and ranges that wouldn't look out of place in any room in the most exclusive penthouses.

With beautiful contemporary and traditional bathroom radiators available, all with matching valves for the finished article, you'll be reluctant to actually put your new radiator into practice and cover it up with a wet towel.

Where space is a concern, we have vertical options available that are ideal for alcoves in living rooms and kitchens as well as bathrooms giving you the heat required without compromise.

# WALL PANELLING

Wall panelling has become a modern alternative to tiling and our Technique and Showerwall panels have proved to be one of the most extensive product and colour ranges available on the market today.

Made from 10.5mm thick MDF and available in 2 different widths, you can create your ideal look in less time and less cost than tiling, without losing any of the appeal of your new bathroom.

Easily fitted over most existing surfaces, including tiles, this waterproof panelling system is elegant and stylish without the fuss.

# WALL PANELLING

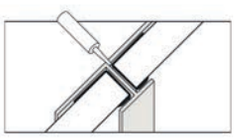

## Three steps to create your waterproof Showerwall system

### 1. DECOR - Select your decor from our seven collections:

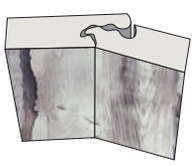

**Technique | Standard | Premier | Premier Plus | Premium | Acrylic Premier | Acrylic Premier Plus**

### 2. PANEL DETAILS - Choose your panel type:

**Square Cut | Proclick**

**Square Cut** is a traditional panel and uses a Joiniting Trim where two or more panels are required side by side.

**Proclick** technology has been engineered to create a mechanical locking system that provides seamless, almost invisible joints.

Installation is made easy through the click design which allows panels to be located quickly and easily into place, eliminating the use of joining trims.

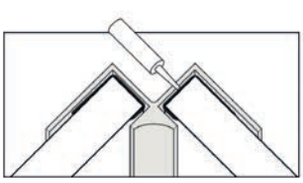

### 3. WATERPROOF SYSTEM

Our system has two key components which ensure a watertight seal for our panels; available in a range of colours to suit every decor. Easy to install and maintain.

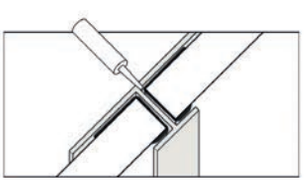

### TRIMS

In order to ensure a watertight finish, trims are required for the outer edges of the panels as well as both internal and external corners.

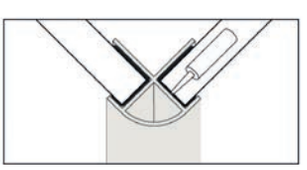

Five trims are available dependant on where you would like to fit our panels. Note: all trims measure 2450mm in length and should be sealed using Showerwall sealant.

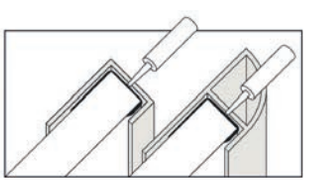

**Internal Corner**
Used on all internal 90º corners.

**Jointing Trim** - For Square Cut Only
Used to mount panels side by side.

**External Corner**
Used on all external 90º corners.

**End Trims and Quadrant Trims**
Finishing end trims for square cut edge panels.

### SURESEAL

At the base of the Showerwall panel even greater sealing performance is achieved using Sureseal.

This seal ensures four points of cover; made up of an enclosed sealant line protected by a neat trim with both front and end capping.

Sureseal measures 2450mm long and is quick and easy to install.

**Available to order in Black, White and Satin Silver.**

We recommend Showerwall's own brand of adhesive is used for the effective fitting of the product. Colour match sealant available for Acrylic Panels.
