

BATHS

Baths have come a long way since a steel tub was placed next to a coal fire and are now considered the pinnacle of bathing luxury.

Our Technique range of free standing baths are made to the highest quality. Whether you're looking for an ultra-modern look, a more traditional style or a mixture of both, you'll find something to suit here.

We also have our Technique range of acrylic baths which are available in many shapes and sizes including L & P shape, corner, gripped and plain versions. Available on various models, our exclusive Armatec option provides extra rigidity with a further coating of super-strength fibreglass, meaning you can be sure that your choice will withstand the pressures of the modern bathroom.

We have five different whirlpool options for that extra touch of luxury that will make your bathing experience all the more relaxing.

ARMATEC

Our **Armatec** baths are made of the highest quality materials providing **strength** and **warmth**.

The baths are reinforced with layers of fibreglass, resin and a special hardening composite called **Armatec** which makes the baths much stronger and improves insulation. As a result, the water stays warm for longer.

The sheet we use is completely resistant to the UV rays which prevents discolouring when exposed to sunlight.
