

HEATING

Designer radiators have become a huge part of modern living, not just in the bathroom but throughout the home. Here you will find some of the most up-to-date designs to give your bathroom the wow factor you've been looking for and ranges that wouldn't look out of place in any room in the most exclusive penthouses.

With beautiful contemporary and traditional bathroom radiators available, all with matching valves for the finished article, you'll be reluctant to actually put your new radiator into practice and cover it up with a wet towel.

Where space is a concern, we have vertical options available that are ideal for alcoves in living rooms and kitchens as well as bathrooms giving you the heat required without compromise.
